

— WE BEGIN WITH —
THE END IN MIND

There is little value in your portraiture investment unless you have something tangible at its conclusion to enjoy. A printed piece that lives permanently in your home will be cherished every day. Plus, according to the Association for Psychological Science, images of our beloved pets play an important role in our physical and mental well-being!

Also, university research has proven that printed art of your human family members provides 65% more emotional connection to your loved ones than swiping through electronic images on a device. And, research shows that images visible and on display for your family and children to see improves their sense of belonging, raises self-esteem, and instills security in their family unit.

Our mission is to help you create something not only tangible for your home, but also deeply moving for you and for your family to love and adore as the years pass. There's a good reason you chose to invest in professional portraiture. We plan to ensure that reason resonates in your heart each and every day, and that your printed portrait art does nothing but grow in sentimental value as time rapidly rushes by.

ALBUMS TELL YOUR
VISUAL STORY

Sitting down with your family and turning through the pages of a photo album from your session is quality time you can never replace.

The album is the coveted artwork you will love - it holds precious memories of images, but also of experiences each and every time you open the book.

Allowing for the display of multiple images from your session, an album tells the story of your furbabies and family and reminds us that flipping through pages can start wonderful conversations and remind us of beautiful times gone by, the fun-loving silliness of our pets, and the important place in our hearts that they have had.

Duplicates

You may order duplicate albums for friends or family at a generously discounted rate.

THE HARLEQUIN ALBUM

A beautiful presentation in a custom designed 8x12 album. Pages have a luxurious feel and smooth finish. Quotes and graphic elements may be added at no charge. Bound with your choice of fabric or leather combo cover with a glossy acrylic or matte finish metal cover image.

THE
BRINDLE
ALBUM

A custom designed 10 x 8 album. Pages have the same look and feel as the Harlequin Album. Quotes and graphic elements may be added at no charge. Bound with your choice of fabric or leather cover with a cameo image featured on the front.

THE
IMAGE
FOLIO

Image Folios lay flat like a closed book, and unfold upright to display on a flat surface, revealing two side-by-side images printed with Lustre photo paper. This product has a sturdy core, making it durable and easy to take on the go. Customize your Image Folio with a wide selection of fabric or leather cover materials. Great for the office or as gifts for family members.

THE
REVEAL
BOX

A client favorite, the Reveal Box is capable of turning a box of images into a frame where subjects can be changed at will. Each box is hand-made by skilled craftsmen and is enriched by high quality materials such as real Italian leather. This is an 8x10 box with 5x7 matted prints and comes in a variety of finishes.

THE NEGATIVES

Digital files are very fragile and won't last. It's as simple as that. While most of our clients want and go home with electronic negatives from their session, it's critical to remember they are not a permanent way to archive your memories. Even if you back them up multiple times, it does not guarantee they will survive.

Having the negatives allows you to print your files limitlessly for personal use. However, most people do not. Busy lives, procrastination and a hectic schedule prevents people from doing what they originally had good intentions for.

So while we gladly offer digital images with wall portrait purchases, we will also print your art pieces. After all, why invest in professional portraiture if your images will simply sit indefinitely on a USB drive buried in a drawer?

Print. It's worth it.
